

GlowStep Revolution User Guide

How to quickly and effectively **lower** your GlowStep Revolution

Step 1:

Remove safety pin, lift **handle**.

Step 2:

With handle lifted, pull from **top step**, as step rolls out, release lever to allow lever to automatically drop into the no. 1 (highest) step position.

Step 3:

Once **handle** is down, pull from bottom step and extend step to the ground.

Step 4:

IMPORTANT:

Always reattach safety pin prior to using step.

Step 5:

Use **spring buttons** on feet to adjust feet to the ground.

Step 6:

If lower step height is desired repeat step one and two to lower the step to position two or three.

GlowStep Revolution User Guide

How to quickly and effectively **raise** your GlowStep Revolution

Step 1:

Remove **safety pin**.

Step 2A:

Completely **collapse*** steps by picking up bottom step and walking in toward the RV.

Step 2B:

TIP:

Use your thigh to assist when collapsing the steps.

Step 3:

With the steps fully collapsed, lift handle and **rotate steps** up and inward while guiding the guide pins into the guide slots located on both sides of the mounting cage until step stores into place in the stored position.

Step 4:

As steps roll in, release the handle. When the handle drops into place, reattach **safety pin** to secure steps.

*** Steps must be completely collapsed to store properly**
