THIS IS YOUR RV CATALOG

Thank you for trusting Steele Rubber Products with the protection of your recreational vehicle.

Here at Steele Rubber Products, we've been making quality crafted rubber parts and weatherstripping since 1958. We're a family run business now in its third generation and we continue to proudly manufacture in the United States!

Our goal is to provide you the best quality and fitting seals and weatherstripping available on the market. Learn more about us and everything we offer by visiting our website at steelerubber.com.

HOW TO USE THIS CATALOG

We've done a lot of research to make this catalog easy to use and it's designed to help you find what parts you need. Grouped into specific categories, each part is presented with a profile silhouette and exact dimensions to help you identify the correct shape and size, ensuring the best fit.

We are so determined in finding you the best solution, we even offer samples of our seals before you make the decision to buy. If at any time you need assistance, our team of Product Specialists are here to help.

INSTALLATION TIP!

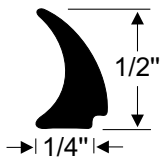

Window Glazing One of our most popular items!

This weatherstrip is wedged between the glass and the retaining metal frame to provide a secure seal. Developed with functionality in mind, this EPDM rubber seal protects against extreme weather and eliminates noise and vibration.

- Remove the old shrunken and dry-rotted vinyl glazing from the window frame.
- Clean the track thoroughly and simply press the new rubber glazing seal into place. Trim to fit. It's that easy!

BLACK OR WHITE AVAILABLE

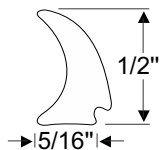

70-3814-257 • per/ft.

Does this look familiar?

The original vinyl glazing will shrink and look like the photos shown here.

Our EPDM rubber replacement glazing is designed to NOT shrink and will look great for years to come.

WHITE RUBBER
70-4090-257 • per/ft.

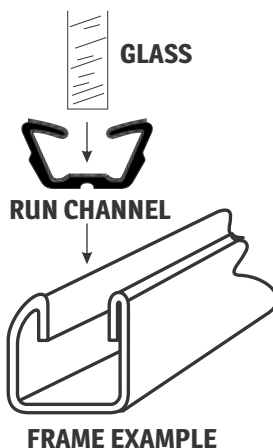

RV Weatherstripping

SLIDING GLASS

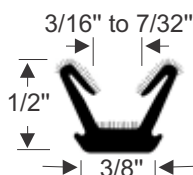

Steele Rubber Product's sliding glass seals are designed with ease of installation and superior function in mind. Samples are available to ensure an exact fit.

Please call 800-230-5897 or visit us on-line at steelerubber.com to order samples or learn about additional profiles.

70-3825-255 • per/ft.

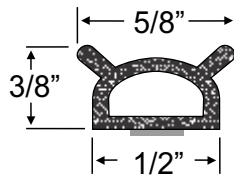

SWING OUT GLASS SEALS

Steele Rubber Product's swing-out glass seals are designed with superior function and ease of installation in mind. The unique profiles maintain a positive and cushioning seal for the glass window without placing undue strain on hinges or latch mechanisms. Most are backed with 3M's Peel-N-Stick adhesive tape to resist the elements and will hold in place for years to come. Samples are available to ensure an exact fit.

DOORS

ACCESS DOORS & COMPARTMENT DOORS

Steele Rubber Product's push-on access door seals are designed to stop leaks, drafts, reduce noise and ensure a secure fit between the door and the frame of the RV. The tube-shaped bulbs consist of a high-quality, weather resistant rubber mated to a flexible edge trim that has an integrated steel core. The result is a long-lasting seal that is easy to install.

DRIP RAIL, INSERT TRIM & STREAK SHIELD

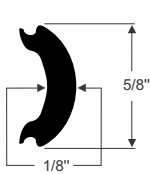

DRIP RAIL

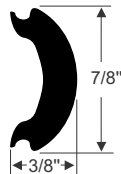

Drip rails are used to catch and divert water away from windows, doors or other openings on the side of an RV, much like a gutter on a building. Steele Rubber Product's drip rails are made of high-quality weather resistant rubber with an easy to use 3M Peel-N-Stick adhesive. This ensures durability and a trouble-free installation.

INSERT TRIM

Our insert trim rubber is the perfect replacement for the original vinyl. Vinyl has a tendency to crack and shrink, allowing water in the track which causes mildew and rust. This dense rubber insert trim is manufactured with UV resistant compounds, and will look great for years to come. Designed to fit & lock into tracks found on many RV and Toy Hauler models.

70-3782-240 • per/ft.
FITS IN 1/2" TRACK

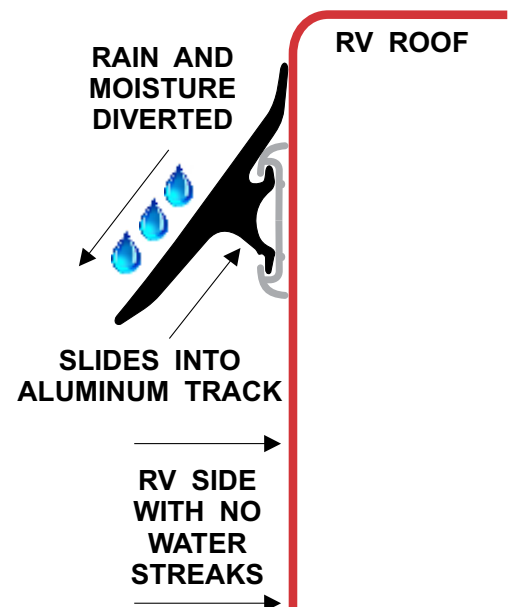

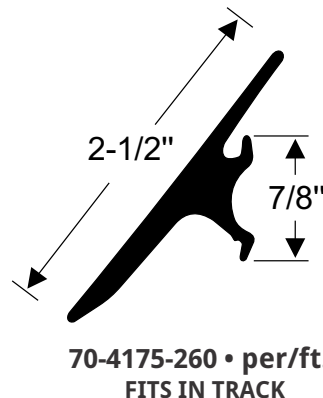

70-3979-240 • per/ft.
FITS IN 5/8" TRACK

TRACK EXAMPLE

STREAK SHIELD

Steele Rubber Products new Streak Shield will prevent the black streaks caused by dripping run-off water on the sides of your RV. Streak Shield easily installs in existing roof-line screw tracks by replacing the old inserts. By shedding water away from the sides of your camper, it also reduces the need for potentially damaging streak cleaners.

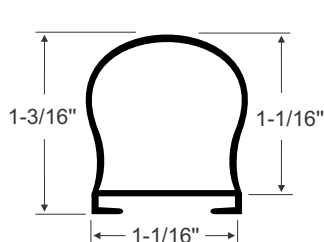

SLIDE-OUT SEALS

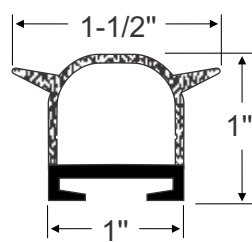

Slide-outs seals can be the most important weatherstripping found on an RV! Worn or poor-quality seals can easily lead to extensive and expensive damage. Generally consisting of a 'wiper' and a round seal called a 'bulb', the wiper seals the gap between the side of the RV body and the slide-out when the slide-out is extended. The bulb makes a seal between the body of the RV and the outside wall edge of the slide-out when retracted. Steele Rubber Products offers you precision-made high-quality rubber seals in a number of profiles to fit just about any configuration.

SLIDE-OUT “H” SEAL PARTIAL REPAIR

Many new RVs feature ‘H’ shaped, combination dual-wiper and bulb slide-out seals. This seal design is used to expedite production. Frequently, it is only the exterior half of the seal that becomes worn or damaged. Steele Rubber Products offers several options on page 10 of this catalog to help you save money and repair or replace only what is needed.

- Save money by replacing only what you need to.
- Re-use parts that are still in good condition.
- Easy to install and readily available replacement parts.

HOW TO TIPS:

- See our installation video for a start-to-finish guide.
- When only the wiper is damaged, remove, clean and re-use the slide-on bulb and track seal.
- When replacing a damaged wiper, be sure to remove the track base as well as the wiper to allow room for the replacement.

Be sure to visit our YouTube channel for installation and repair tips.

SLIDE-OUT SEALS

When choosing slide-out seals, be sure to note the type your RV has:

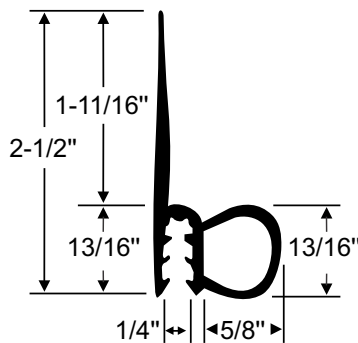

- Is it one or two-piece?
- How is it installed (glued-on, pushed-on, or does it utilize an adhesive tape)?
- What are the dimensions of the seals and the tracks they slide into and/or the surfaces that they adhere to (length, width and height)?

RV Weatherstripping

UNIVERSAL - TRUCK CAPS & TONNEAU COVERS

Steele Rubber Products now offers weatherstripping for your tonneau covers, truck bed caps, and camper shells. Designed with ease of installation and durability in mind, our seals are extruded in highly weather and use-resistant EPDM sponge and dense rubber. Unlike vinyl, this rubber will not shrink, fade or crack over time and with exposure to harsh conditions. While the profiles shown below are some of the most common, finding the BEST seal is often more dependent on your actual set-up than what was originally supplied. We recommend you take the time and measure the gaps that need to be sealed and then choose accordingly. Many of our compartment and door seals featured on pages 6-8 will support the customization of your project. Check out our tonneau cover installation video for more information.

Adhesives, Cleaners & Sealers

Masking Tape 1-1/2 Inch

96-3433-96

3M™ Automotive Performance Masking Tape is a quality masking tape developed for the special requirements of the automotive restoration industry. It provides excellent adhesion to moldings, metal, plastic and rubber.

Masking Tape 3/4 Inch

96-3431-96

Steele Rubber Products has the best quality specialized tools for your classic automobile restoration effort. 3M™ Automotive Performance Masking Tape is a quality masking tape developed for the special requirements of the automotive restoration industry. It provides excellent adhesion to moldings, metal, plastic and rubber.

3M Super Weatherstrip Adhesive Black (2 oz.)*

96-8581-296

Designed specifically to bond rubber gaskets and weatherstripping to metal surfaces. This flexible, high-strength adhesive helps ensure a tight waterproof seal on car doors, trunks, roof rails and more. Black in color. 2 oz. tube.

3M Super Weatherstrip Adhesive Yellow (2 oz.)*

96-8002-96

Designed specifically to bond rubber gaskets and weatherstripping to metal surfaces. This flexible, high-strength adhesive helps ensure a tight waterproof seal on car doors, trunks, roof rails and more. Yellow in color. 2 oz. tube.

*State of California Only WARNING:

Products with an asterisk (*) can expose you to chemicals including toluene which is known to the State of California to cause cancer or birth defects or other reproductive harm.

For more information, visit www.P65Warnings.ca.gov

3M Super Weatherstrip Adhesive Black or Yellow (5 oz.)*

This Super Weatherstrip Adhesive is designed to bond seals and gaskets to metal to ensure a waterproof and airtight seal inside your vehicle. This adhesive is ideal for weatherstripping around doors, trunk, t-tops, sunroofs, and windows. This adhesive creates a permanent bond when used on rubber, fabrics, seals, and metal. Although the adhesive remains pliable it is still resistant to the elements, detergents, grease, and more. Choice of black or yellow adhesive. 5 oz. tube.

96-8008-296 (BLACK)

96-8001-96 (YELLOW)

3M Weatherstrip Adhesive Black (5 oz.)*

96-8011-296

This Black Weatherstrip Adhesive is designed to bond weatherstrip and seals to other rubber parts and specifically to EPDM rubber. This adhesive is ideal for door, trunk, t-top, and sunroof weatherstripping. This adhesive creates a permanent bond when used on rubber, fabrics, vinyl, and metal. Although the adhesive remains pliable it is still resistant to the elements, oil, grease, and solvents. 5 oz. tube.

Loctite Super Bonder 495

96-0495-296

General purpose instant adhesive designed to bond rubber, metal and plastic parts. Excellent for modified gaskets or rubber footage made of dense or sponge rubber. 3 gm. tube.

Call or visit our website for current pricing

3M General Purpose Adhesive Cleaner Spray*

Makes the job of removing adhesive residue an easier task. Works by softening sticky substances that are often stubborn to remove. Quickly cleans off wax, grease, oil, old adhesive, road tar, silicone and other sticky residues. Will not dissolve or harm automotive paint that has been properly aged. Also suitable for use on vinyl or glass surfaces. 15 oz. aerosol. NOTE: CANNOT BE SHIPPED VIA AIR.

96-8987-96

3M Auto Bedding and Glazing Compound

Flexible sealer designed specifically for creating a watertight seal between windshield rubber gaskets and auto bodies. This synthetic rubber-based sealer remains permanently soft, making it suitable as a bedding and a supplementary adhesive sealer for auto glass. It also resists sagging for use in vertical and overhead auto seals. 10 oz. cartridge.

96-8509-296

3M Adhesive Cleaner*

A specially blended solvent that provides easy clean up of most types of adhesives and quickly removes waxes, road tars, grease, oil and similar materials. Will not harm thoroughly dried automotive paint, vinyl or fabrics when properly used. 1 Quart Can. NOTE: CANNOT BE SHIPPED VIA AIR.

96-8984-96

Call or visit our website for current pricing

*State of California Only WARNING:

Products with an asterisk (*) can expose you to chemicals including toluene which is known to the State of California to cause cancer or birth defects or other reproductive harm. For more information, visit www.P65Warnings.ca.gov

3M Urethane Adhesive*

3M™ Auto Glass Urethane Windshield Adhesive is a medium viscosity, one-part, moisture-curing urethane adhesive. It is formulated to be fast-curing and non-sagging for rapid results and a clean and simple application process. The features of this adhesive produce a high-strength bond and is ideal for mounting vehicle windshields, backlights, sidelights, and even beltline windowfelts.

96-8693-96

3M Plastic and Emblem Adhesive

An excellent clear adhesive for plastic repair and emblem application. Use this strong, quick-drying adhesive for plastic or metal emblems, interior rigid plastic, tail light lenses, vinyl side moldings or upholstery. 5 oz. tube.

96-8061-296

3M Rubberized Undercoating*

3M™ Professional Grade Rubberized Undercoating produces a textured finish which resists chipping, abrasion, exterior rusting and weathering. This coating provides one-coat build-up with no dripping, running or sagging. The undercoating is excellent for automotive undercarriages and for other uses including protection for wheel wells, fenders, quarter panels and more.

96-3584-96

Tools

All Purpose Tool, Short Tip

94-0101-94

A varied-purpose tool. Assists in the installation of roof, windows, windshield rubber and back glass. Used to remove body clips, moldings, springs, cotter pins and radiator hoses. Measures 9.5 inches long by 5.5 inch blade.

All Purpose Tool, Longer Tip

94-0102-94

An all purpose tool with an extra long hook. Use to remove moldings, body clips, windshield seals, cotter pins and radiator hoses. Made of tough spring steel, heat treated, tempered and plated. 8 inches long, 4.875 inch blade with 2 inch hook.

Panel Clip Retainer Removal Tool

94-0100-94

For removing clips and retainers quickly and easily. Simply seat the tool on the shaft of the fastener and squeeze the molded handles together.

Wooden Handled Tuck Tool

94-0104-94

For tucking weatherstripping, headlining, and upholstery around windows, above doors and other hard to reach places. A sturdy, rough tool with a slightly curved blade that has finished edges around corners. Comfortable wood handle. 7.5 inches long with 2.625 inch blade.

Call or visit our website for current pricing

Locking Strip Tool

94-0111-94

This tool helps install the 3/8" locking strip used on some windshield and rear window rubber seals.

Rope Insertion Tool

94-0118-94

This Rope Insertion Tool is specifically designed for use when working with rubber gasket set glass. The grip handle is uniquely injects the rope through its stem as it is pulled around the gasket to install. The tool has enough durable rope to accommodate even the of largest windows. Eighteen (18) foot rope length provides complete coverage.

Steele Branded Safety Glasses

94-0109-94

Reinforced plastic, clear lenses and wraparound frame.

Scraper/Tuck Tool

94-0110-294

This handy tool is great for scraping off old glue and prepping surfaces without damaging metal. Also can be used to help tuck rubber which makes replacing windshield gaskets easier. A good multi purpose tool.

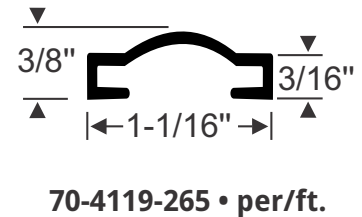

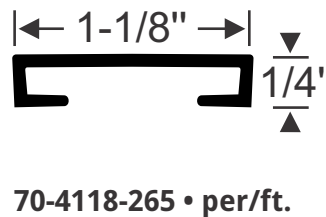

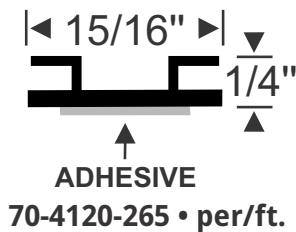

Measures: 7-3/4" by 5/8"

SCREW-TRACK COVERS

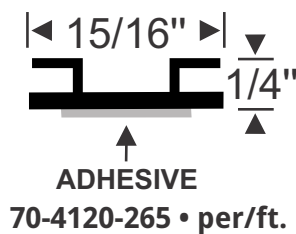

Steele Rubber Products screw-track covers are great for covering a row of open screws or rivets. They can also be used to cover a line where two panels meet. The domed version 70-4119-265 accommodates larger hardware or could conceal properly insulated wiring and cables.

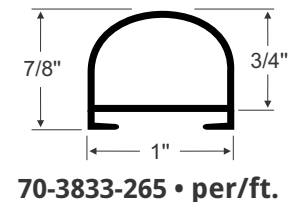

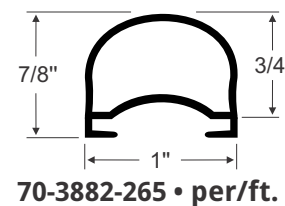

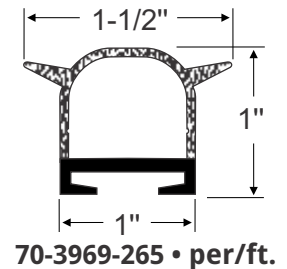

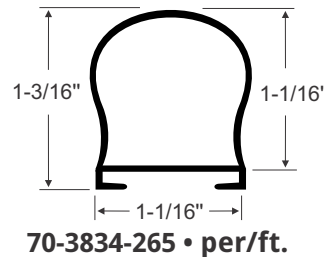

Part# 70-4120-265 must be used as a base for each.

SLIDE ON BULB SEALS

The Track Channel 70-4120-265 is the base for many of our slide-out seal products. By itself, this track may be used in combination with any of the four bulb-and-track combinations shown here to supplement your existing sealing arrangements. Likewise, this combination can be used anywhere else you need a robust and serviceable seal design.

CREATE YOUR OWN CUSTOM SEAL

FLAT SCREW TRACK COVER ALSO ALLOWS THE CREATION OF YOUR OWN CUSTOM SEAL!

By utilizing our part# 70-4120-265 & flat track # 70-4118-265 you can add any of our Peel-N-Stick extrusions on top. This creates a custom seal for a variety of applications.

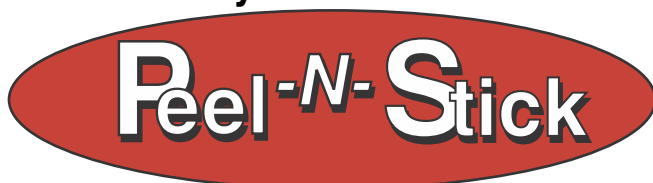

Call or visit our website for current pricing

INSTALLATION TIPS

Peel-N-Stick Instructions

Easy to Install . . .

**Weatherstripping From
Steele Rubber Products**

"No messy glue, just peel and stick"!

**Steele Rubber Products Peel-N-Stick parts
featuring 3M's bonded adhesive are easy to install
and provide long lasting protection.**

Instructions:

1. Examine New Seal- Please examine the Peel-N-Stick parts in the package to ensure they meet your expectations prior to installation. If the part has any defects, please contact us directly. We cannot accept returns of Peel-N-Stick parts that have been cut or altered.

2. Clean Surface- Before installing the part, the application surface must be clean and free of adhesive residue, grease, old seals or wax. Rubbing alcohol is recommended as a means to ensure a properly prepared surface. Be sure to allow the alcohol to dry prior to installing the new Peel-N-Stick weatherstripping.

3. Cut To Size- If necessary, cut the weatherstrip to length using sharp scissors or a knife. A colored marker may be used to note where to cut the seal. For best results, compress the material while cutting to ensure a straight and uniform edge.

4. Installation- When installing the part, start at one end and slowly peel back the red tape in short lengths. Firmly press the weatherstripping onto the surface. Note: Once applied, damage to the weatherstripping or adhesive failure could occur if an attempt is made to remove and re-apply it.

MITERING CORNERS

1. Mark a 45 degree line from the corner edges of the ramp gate. Laying the seal across the corner, mark the outside edge of the seal where it intersects that line.
2. Using the corner of a piece of paper, carefully mark a right angle on the seal starting from the intersection line. (Figure 1)
3. Trim the seal along the marked lines, however, DO NOT cut all the way through the seal leaving the outside edge holding the seal together. (Figure 2)
4. Carefully apply the **Super Bonder 495** to one side of the cut edges and fold the seal together to form a 90 degree corner. (Figure 3)

RETURN POLICY

In the event that you need to return any products, contact us directly Monday-Friday 8am-6pm at 800-461-7089 (toll free) or 704-483-9343 (local) and our Customer Service Representatives will provide you with a return merchandise authorization number (RMA) and instructions for returning any part(s) to us.

Note:

Parts are accepted for return only in the units purchased and with the original invoice. We cannot accept refund packages sent COD or any method for which there is a charge to us. If a part is altered or damaged in any way, we will not be able to accept it for return. We cannot accept returns of products not purchased directly from Steele Rubber Products. Shipping and handling charges are not refundable. To view our full return policy visit: steelerubber.com/returns

PARTS AVAILABILITY

New parts are constantly added to our inventory. Visit us online for current availability of all products.

DELIVERY OF PARTS

We cannot guarantee a continuous roll of any extrusion in this catalog when ordered in bulk. We will do our best to ensure that each strip is as long as possible to minimize scrappage for you. Therefore, we reserve the right to deliver your parts in multiple lengths to meet your total purchase requirements.

USE OF PARTS

These parts are replacement options and not factory-original products. We are not responsible for damages caused by incorrect installation, abuse, mishandling, accidents or normal wear. Nor will Steele be responsible for labor charges, inconveniences, or any other expenses associated with parts bought through resellers or Steele.

SATISFACTION GUARANTEE

We offer a 100% satisfaction guarantee on all parts manufactured by and purchased from Steele Rubber Products.
