## Solar power doesn't have to be complicated.

Whether you want to brew a cup of coffee, power up your tools or tune in to your favourite TV program, we can make the process as simple as flipping the switch.

Why use solar? Enjoy the sound of nature rather than a generator. Maintenance free, your RV solar system will pay for itself as it extends the life of your batteries and saves you campsite hook up fees. Easy to install and easy to operate, you don't need to be technically savvy to start using solar, we've got it covered.

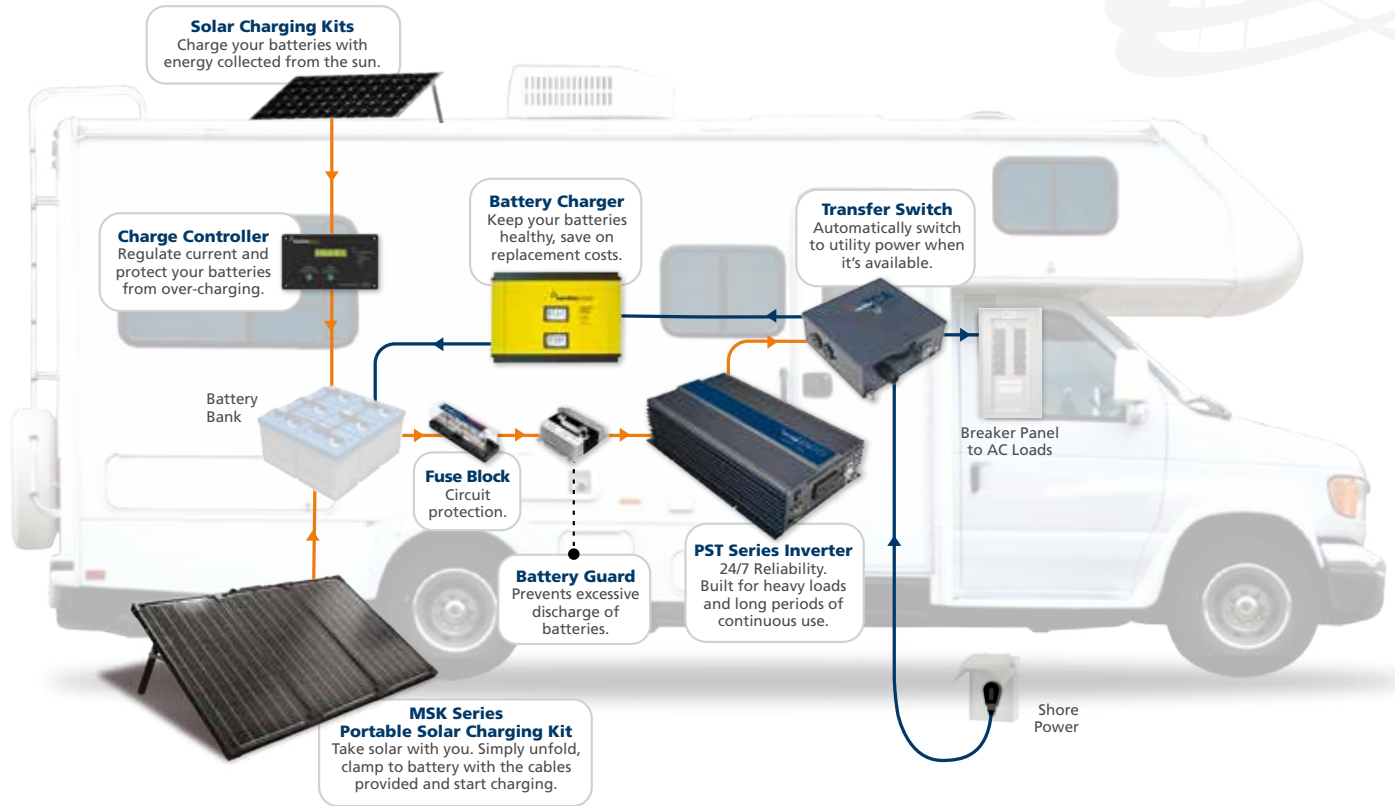

Still have questions about your RV Power Solution? You tell us what you want to power and we'll tell you how. Call our live technical support team at **1-800-561-5885**. Samlex is **Per**sunal Solar made simple.

# ALL-IN-ONE Solar Charging Kits

## SRV Series Kits

Every SRV kit includes an industry leading 30 Amp flush mount charge controller, connecting wires, mounting brackets and hardware. All the parts you need to start using solar today.

SRV-100-30A

SRV-150-30A

Talk to your distributor / dealer about install options or do it yourself with step by step videos.

Available in 100 and 150 Watts

MODEL	SOLAR PANEL	WEIGHT		DIMENSIONS		CHARGING AMPS
		(KG)	(LBS)	(MM)	(INCH)	
SRV-150-30A	150W	12.0	26.4	660 x 1474 x 35.3	26.0 x 58.03 x 1.39	8.82 Amps
SRV-100-30A	100W	8.0	17.63	552 x 1200 x 35.3	21.73 x 47.25 x 1.39	6.07 Amps

# What's in Your SRV Kit

100W Panel

150W Panel

## 1 Solar Panel

Samlex solar panels are constructed with top of the line solar cells and materials that comply with the highest industry standards.

- High efficiency
- Waterproof connectors
- High transparency tempered glass
- Anodized aluminium frames
- Resilient to harsh weather conditions

SCC-30AB

## 2 Charge Controller

Samlex 30 Amp Flush Mount Charge Controllers regulate current and protect your batteries from over-charging. Features of this 4-stage Charge Controller include: LED status indicators, LCD display, battery equalization and 8 charge settings for most battery types.

SCW-20-2

## 3 Connecting Wires

A pair of weather resistant 20' solar panel connecting wires are provided to connect your panel to a charge controller or to an additional panel. One end of each wire is blunt and the other has a pre-assembled male or female multi-contact connector. Specifically designed for use in solar systems. Also sold separately.

SM5-KIT

## 4 Mounting Brackets & Hardware

Mounting brackets are provided to secure the solar panel to a flat surface while providing space underneath to facilitate cooling. Constructed in aluminum, the brackets have large surface areas on top for better stability and five available drilling holes on the bottom for convenient installation. Also sold separately.

## Not all solar kits are made the same...

Samlex Solar panels are weather resistant and built to last – even in harsh conditions of hail or heavy snow. Aluminum frames will not rust. **Samlex guarantees its solar panels with a 25 year power warranty.\***

Every Samlex SRV ALL-IN-ONE Solar Charging Kit includes a flush mount 30A charge controller designed to quick connect to the cables attached on the back of your solar panel. One 30A controller can manage up to 550 Watts of solar power, so expanding your system is easy – just add panels as needed. **Battery equalization restores battery capacity, revives efficiency and extends battery life.** The digital display shows charging stage, voltage, current, and battery Amp Hours. Samlex offers a 5 year warranty.

Every Kit includes a set of aluminum mounting brackets with all of the hardware required to mount your solar panel securely to your RV rooftop. Mounting brackets are specifically designed for placement flexibility around rooftop obstacles.

To ensure a leak-free installation, Samlex provides industry leading fasteners that expand to prevent moisture from getting inside your RV.

Samlex Solar uses only the highest grade of connecting wires, all coated with UV protective material to combat weather decay. Inexpensive cables and connectors without weather protection can erode after only a few years of use. **Samlex cables are built to perform consistently in the toughest conditions.**

\* Refer to specific product warranties for details and limitations.

# Customize or Expand Your Solar Power System

## 1 SSP Series Panel Kits

Purchase an SSP Solar Panel Kit and Charge Controller separately. Tailor a system based on your power needs. Combine different panels, or add a panel in the future. Each Panel Kit includes a solar panel, connecting wires and mounting brackets.

### ALSO USE AS AN EXPANSION KIT

Add branch connectors, SBC-2 (sold separately) to connect panels in parallel.

Available in 100 and 150 Watts

MODEL	SOLAR PANEL	WEIGHT		DIMENSIONS		CHARGING AMPS
		(KG)	(LBS)	(MM)	(INCH)	
SSP-150-KIT	150W	12.0	26.4	660 x 1474 x 35.3	26.0 x 58.03 x 1.39	8.82 Amps
SSP-100-KIT	100W	8.0	17.63	552 x 1200 x 35.3	21.73 x 47.25 x 1.39	6.07 Amps

## 2 Charge Controllers

All our charge controllers monitor and control the flow of current from your solar panel going to your batteries. They prevent over-charging and can extend the life of your batteries.

## Charge Controllers Features

### SCC-30AB

- 30 Amp Flush Mount Charge Controller
- Manages up to 550W of solar power
- 8 charge settings for most battery types
- Included in every SRV Solar Charging Kit

**5 YEAR LIMITED WARRANTY**

### SMC-20

- 20 Amp Charge Controller
- Manages up to 330W of solar power
- Automatic detection of 12V/24V
- Load disconnection and automatic load reconnection

**5 YEAR LIMITED WARRANTY**

### MSK-10A

- 10 Amp Charge Controller
- LED display with 3 stages of intelligent charging
- Backflow current protection for your panels
- Optional temperature sensor

**2 YEAR LIMITED WARRANTY**

### SCC-1208L

- 8 Amp Charge Controller
- Rated IP65, sealed, splash proof weather resistant design for the outdoors
- Automatically turns ON lights when dark and turns OFF during the day
- Wide operating temperature range of -40°C to 60°C

**5 YEAR LIMITED WARRANTY**

## 3 Solar Accessories

### Branch Connectors

Use to connect panels in parallel. (Sold in male/female pairs).

### Adjustable Panel Tilt Mount

Improve charging by up to 40%.  
Over 30 adjustable settings.

### Connecting Wires (20')

SCW-20-2

### Mounting Brackets & Hardware

### Multi-contact Connectors

# Portable Solar Charging Kits

## MSK Series

Take solar with you. Easy to use. Just unfold, clamp to your battery and start charging. Great for RVs, Cabins, Camping, Boats and for Emergency Back-up Power.

MSK-90

### Features

- Solar panel is pre-wired with battery clamps for a quick and easy connection, 16' cable
- Adjustable legs allow for maximum sun exposure
- Built-in 3 stage 10 Amp charge controller manages the charge to the battery and prevents overcharging
- For use with 12V Lead Acid batteries (not included)
- Trifold panel for easy storage and transport

### 10 YEAR POWER WARRANTY

### How Much Power Can I Generate Per Day?

MSK-90
Up to <b>35</b> Amp Hours*
MSK-135
Up to <b>53</b> Amp Hours*

\* Based on optimal sunlight and turning the panel a few times throughout the day to follow the sun.

MODEL	WATTS	WEIGHT*		MSK DIMENSIONS OPEN		MSK DIMENSIONS FOLDED		CHARGING AMPS
		(KG)	(LBS)	(MM)	(INCH)	(MM)	(INCH)

MSK-XLR	2-pin XLR Adapter (sold separately)							
MSK-EXT	Extension Cable (sold separately) 10 meters / 33 feet							

\* Weight includes carry bag and cables.

# What's in Your MSK Kit

Trifold Solar Panel

Protective Carrying Case

MSK-10A Built-in Charge Controller

Pre-wired Battery Clamps

2-pin Adapter

## Optional:

MSK-XLR 2-pin XLR Adapter

MSK-EXT Extension Cable

# Battery Maintainers

## Suncharger Series

Perfect for maintaining the battery in your RV, Car, Boat, Motorcycle or ATV and for saving on replacement costs.

## Features

- Maximum efficiency
- Prevents back flow of current from the battery to the panel
- No need for additional Charge Controller
- Semi-flexible panel construction
- Rugged, weatherproof design
- 10ft cable
- 1ft cable with 12V power plug
- 1ft cable with ring terminals for battery

## 2 YEAR LIMITED WARRANTY

MODEL	WATTS	WEIGHT		CHARGING POWER
		(KG)	(LBS)	
SC-05	4.8W	0.55	1.2	0.30 Amps
SC-10	9.5W	0.90	2.0	0.56 Amps

\* May not be exactly as shown.

# Pure Sine Wave Inverters

## PST Series

### 24/7 Reliability

Built for heavy loads and long periods of continuous use, giving you peace of mind when it comes to safe and reliable AC Power.

PST-600-12

### Design Features

- Quiet operation – temperature controlled fan reduces energy consumption
- Extremely low interference – won't disrupt the reception of your TV, radio or audio equipment
- 1500 - 3000W models can be hard wired
- Clean and reliable AC power identical to household electricity
- Power sensitive devices like TV's, stereos and home office equipment
- Commercial grade design suitable for heavy duty loads, long periods of continuous operation and for emergency back up
- Wide operating DC input range: 10.5 to 16.5 VDC
- Low idle power draw
- Wide user temperature range

**3 YEAR LIMITED WARRANTY**

## Optional Remote Controls

RC-15A

### RC-15A

- Power ON/OFF
- LED indicator for overload and over temperature
- For use with PST-600-12, PST-1000-12 and PST-1000F-12

RC-300

### RC-300

- LCD displays AC Volts, AC Amps, frequency, power (Watts), and power factor
- LED Indicators for overload, over temperature and power
- Includes 25' cable
- For use with PST-1500-12, PST-2000-12 and PST-3000-12

\* Hardwire capable †Remote Input – Use to turn inverter ON or OFF with ignition start or any other Remote ON/OFF switch.

# Pure Sine Wave Inverters

## NTX Series

### Compact Size & Lightweight

The new NTX Series Pure Sine Wave Inverters are FCC certified to ensure no electrical interference when operating near sensitive equipment. This series is compact and lightweight and has a single variable speed temperature and load-controlled fan for quiet operation.

### Features

- Samlex Hypersurge™ technology starts high surge loads with ease
- High efficiency and very low idle current
- 2 GFCI protected outlets (1000W, 1500W and 2000W models)
- Wide input voltage range
- NTX-3000-12 features a 30 Amp NEMA L5-30R locking AC outlet with mating plug and built-in GFCI protection for full power utilization

NTX-2000-12

### FREE Remote Control Included with all Models!

NTX-RC

### NTX-RC

- Power ON/OFF
- 10' cable with RJ45 Connector
- Informative LDC display indicates Input Voltage, Output Voltage, Output power (bar graph), Input and Output Fault.
- Power save mode

2 YEAR LIMITED WARRANTY

# Pure Sine Wave Inverters

## SSW Series

### Reliable AC Power at an Affordable Price

Ideal for powering sensitive loads such as televisions, cordless tool chargers, microwaves, automatic coffee makers and office equipment. Size your load and select your inverter with our Inverter Sizing Table, page 22.

SSW-1000-12A

### Features

- Compact and lightweight
- High surge: 2X continuous power
- True Sine Wave Power - ideal for sensitive loads
- Soft start and cool surface technology
- 300 and 600 Watt models have USB charging port
- 1000, 1500, 2000 Watt models have two GFCI protected outlets
- Protections: Thermal, battery overload, short circuit and earth fault
- Safety certified to UL standards

### SSW-R1-12B Remote Control

**Included with every 1000, 1500 and 2000W model!**

- Power ON/OFF
- 10' cable with RJ45 connector
- Display indicates: Input Voltage, Output Power, Input Fault, Output Fault
- Also sold separately

2 YEAR LIMITED WARRANTY

# Modified Sine Wave Inverters

## SAM Series

### Durable Construction

Easy to install and operate. Use SAM Series modified sine wave inverters to power your toaster, kettle, gaming system, laptop, power tools or water and air pumps. Size your load and select your inverter with our Inverter Sizing Table, page 22.

### Features

- Compact and lightweight
- 100 to 800 Watt models include a USB Charging Port
- USB Charging Ports are 2.1 Amps for charging the newest smart phones and tablets
- Low Battery Input Alarm
- Soft start and cool surface technology
- Universal protection circuit: thermal, battery, overload, short circuit, earth fault
- Safety certified to UL standards

### Optional Remote Control

#### SAM-RC

- Power ON/OFF
- 16' cable with RJ45 Connector
- Bar Meter Monitor for battery charge level and output power
- Power save mode
- For use with 1000-3000W Models

2 YEAR LIMITED WARRANTY

# Inverter/Chargers

## Evolution™ Series

Inverter, Battery Charger and Transfer Switch – All in one device. This robust power system automatically switches between shore power, generator and your batteries as different power sources become available.

### 2 AC Input Features

- Pure Sine Wave Inverter
- Configurable Multi-Stage high current Battery Charger with Equalization
- <16ms Transfer from Grid/Generator to Inverter
- Wide Operating Temperature Range
- Programmable Power Save Mode
- Temperature Controlled Cooling Fans
- Conformally Coated Circuit Board

### Two Separate AC Inputs for Grid & Generator

Connect Grid and Generator simultaneously, no need to reconfigure system as power availability changes. Priority is given to Grid. Both AC input ranges are fully programmable.

### Adaptive or Timed Battery Charger

Choose between a timed or an adaptive charging algorithm. The adaptive algorithm monitors the battery condition to set the remaining time in the bulk stage. In order to reduce excess charging time and extend the life of lead acid batteries, use this setting. Our timed algorithm allows for a timed second stage. For lithium "drop in replacement" battery banks, a timed second stage is the optimal choice.

### Synchronized Transfer at Zero Crossing

Zero transfer time when switching from Inverter to Grid. When grid comes on, the inverter synchronizes with the wave form and then transfers instantly at zero crossing without any interruption to the load.

### Input for Solar Charge Controller

Connect a solar charge controller directly to the EVO™ through the Battery Charger External DC Input (Solar Input). When renewable energy is available on this external DC input, the EVO™ will reduce the value of battery charging power sourced from its internal charger by the amount available on this input.

### High Surge Inverter with Active Power Boost

In addition to 3X surge on start up, loads can exceed the continuous power output by the Power Boost Allowances without triggering an overload fault. Get 150% for 5 seconds or 120% for 5 minutes!

### Online Mode

Use to prioritize Batteries/Inverter over the grid. Choose to operate primarily on solar power even when grid is available. In Online Mode, grid is only used as back-up power when batteries necessitate charge.

### Bullet Proof Intelligence

9 physical points of protection monitoring are scanned up to 10,000 times per second to detect adverse internal and external conditions. When detected, the unit will initiate a healthy shutdown before any damage can be done, making the EVO™ practically indestructible.

MODEL	NOMINAL DC INPUT	NOMINAL AC OUTPUT	OUTPUT POWER	SURGE	BATTERY CHARGER	TRANSFER SWITCH	DIMENSIONS		WEIGHT	
							(MM)	(IN)	(KG)	(LBS)
EVO-2212	12V	120V	2200W	6600W	100A	40A	325 x 426 x 207	12.79 x 16.77 x 8.15	27	59

3 YEAR LIMITED WARRANTY   

### Remote Control with Removable SD Card for Data Logging

The **EVO-RC** remote control (sold separately) can accept a 32GB SD card to capture data. Log historic power consumption, inverter functionality, battery charging activity, faults and the conditions leading up to them. Use the remote to program parameters and view performance details in real time. 33 ft RJ-45 data cable included.

# Inverter/Chargers

## Samlex Evolution™ F Series

Pure Sine Wave Inverter/Charger with 6 programmable charging profiles – 2, 3 and 4 stages with Equalization. For use with Lead Acid or Lithium Batteries.

### 1 AC Input Features

- User configurable Timed or Adaptive algorithm to charge a wide range of battery types
- Zero transfer time switching from inverter to grid, synchronized transfer at zero crossing
- 3X Surge power with Power Boost
- Wide Operating Temperature Range  
-20 to 60°C / -4 to 140°F
- GFCI & Hardwired models available

There is no need to upsize to a larger inverter/charger just to handle short duration heavy surge loads, resulting in reduced costs.

**3 YEAR LIMITED WARRANTY**

EVO-1212F

EVO-1212F-HW

MODEL	NOMINAL DC INPUT	NOMINAL AC OUTPUT	OUTPUT POWER	SURGE	BATTERY CHARGER	TRANSFER SWITCH	DIMENSIONS		WEIGHT	
							(MM)	(IN)	(KG)	(LBS)
EVO-1212F	12V	120V	1200W	3600W	60A	30A	324 x 415 x 148	12.76 x 16.34 x 5.83	17.6	38.8

EVO-RC-PLUS

### Remote Control with Removable SD Card for Data Logging

The **EVO-RC-PLUS** remote control can accept up to 32GB SD card to capture data. Advanced features for programming various parameters and modes of operation. Robust metal enclosure. Comes with 10M / 33ft RJ-45 data cable.

# Battery Chargers

## SEC UL Series

### Protect Your Battery Investment

Upgrade your converter to a Samlex SEC Smart Charger. Use utility power or a generator to rapidly charge and maintain your batteries.

### Features

- 2 or 3 Stage, Rapid and Safe Charging (selectable)
- 120 or 230 VAC, 50/60 Hz (selectable)
- Analog meter display
- For all types of Lead Acid Batteries
- Charge with a battery load – or stand alone
- Safety Certified Intertek ETL Listed to stringent UL standards

### 2 YEAR LIMITED WARRANTY

### Optional Remote Control

#### 900-RC

- Power ON/OFF
- Monitor charging status from a remote location
- Includes 33' cable

MODEL	INPUT VOLTAGE	INPUT FREQUENCY	NOMINAL DC OUTPUT	CHARGING CURRENT	DIMENSIONS		WEIGHT	
					(MM)	(IN)	(KG)	(LBS)

900-RC	For use with SEC-1250, 1280, 2425, 2440. 33' cable. LED indicators for power, boost/absorption and float stage.							

# Transfer Switch

## STS-30

### Automatically Switch to Utility Power When it's Available

Completely hands-free, a Samlex transfer switch automatically detects Utility or Generator Power, when it's available, and allows a seamless transition from your inverter or battery bank.

STS-30

#### Features

- Has a rated capacity of 30 Amps at 120 VAC and is suitable for a 30 Amp Utility Power Cord and a Generator of up to 3.6 KVA capacity
- Can be installed on the line side of the main breaker panel, allowing switching of the entire load or on the load side to only switch dedicated circuits
- DIP Switch select to enable a time delay when transferring to a generator

#### 2 YEAR LIMITED WARRANTY

#### PRE-WIRED

For ease of connection for setting up back up power

## How your transfer switch works

### WHEN UTILITY POWER IS UNAVAILABLE...

The transfer switch detects your battery bank system and transfers inverter output to the breaker panel.

### WHEN UTILITY POWER IS AVAILABLE...

As soon as you plug in, the transfer switch automatically disconnects your inverter system and transfers utility power to feed the breaker panel. Connect a battery charger to the terminal provided on the transfer switch and your batteries will also charge when utility power is available.

# Battery Accessories

## Battery Monitors

Intelligent, microprocessor based battery voltage monitors. Both models have programmable alarm thresholds and audio alarms at high and low voltage levels.

### BW-01

#### Features

- LED indicators for terminal voltage and battery under-charge status
- High voltage limit during charging, programmable
- Low voltage alarm (with buzzer), programmable
- 3 day timer with auto deactivation at 10.4 volts to prevent excessive drain

BW-01

**2 YEAR LIMITED WARRANTY** 

### BW-03

#### Features

- Digital display
- Can monitor two batteries
- Very low power consumption/ Power Saving Mode
- Splash resistant top

BW-03

**2 YEAR LIMITED WARRANTY** 

ACR-160

## Automatic Charge Isolator

### ACR-160

Also known as a Battery Separator, Isolator, or Automatic Charging Relay. It is a voltage dependant switch that separates or parallels starter and auxiliary battery banks in order to: (1) Protect the starter battery from deep discharge, and (2) Recharge the two battery banks.

#### Features

- Easy to install - does not require changing the existing circuit of the alternator
- Potted, waterproof, sealed unit
- Combines battery banks for charging and isolates them when charging has stopped:
  - Provides priority for charging only the starter battery first
  - Protects from excessive discharging of the starter battery
- Over voltage protection

**2 YEAR LIMITED WARRANTY** 

## Battery Guards

### BG-40

- 40 Amps

### BG-60

- 60 Amps

### BG-200

- 200 Amps

#### Features

- Prevents excessive discharge of batteries.
- Longer battery life
- Can be programmed to disconnect/reconnect at different sets of voltages
- Prevents damage to connected components
- Protects against excessive voltage caused by faulty alternators or chargers

**2 YEAR LIMITED WARRANTY**

BG-60
