

## Anderson 4-Way Valve Replacement Parts

Many Heartland products use an Anderson 4 Way Water Service Panel to connect to city water, fill the fresh tank, and winterize or sanitize the water system. The specific model is the **Kantleak 200-RV Water Service Panel**, pictured here.

This item is warranted by Heartland RVs through the duration of your Heartland RVs supplied warranty period. During the warranty period, in order to obtain replacement parts:

- Contact your selling dealer, or an RV dealership that sells and services Heartland products. The dealer can obtain necessary parts and install them for you.
- or
- Contact Heartland Customer Service (877-262-8032 / [service@heartlandrvs.com](mailto:service@heartlandrvs.com)). Heartland can send you parts directly for self-install.

After your warranty has expired, in addition to the above contacts, you may purchase replacement parts from the following distributors:
